

LDP / LTC data sheet

The torque testing bench technology up to 15000 Nm

Static. Dynamic.

- » Calibrates on the original screw
- » Practical, recreated 1:1 to the bolting process
- » Consideration of all the influencing factors
- » Static and dynamic torque measurement up to 15,000 Nm

Technical data

LDP series (100-15 000 Nm)

The modular construction kit of the LDP series:

- » module for the graphical representation
- » module for different languages
- » module unit of measurement
- » database module

LTC series (100-5,000 Nm)

Available for the following following measuring ranges:

- » LTC-10 100 – 1000 Nm
- » LTC-30 300 – 3000 Nm
- » LTC-50 500 – 5000 Nm

LDP series

LTC series
